

How to: Check Network Settings in Windows ME

▶ **Summary**

While troubleshooting your Lindsey Communications High Speed internet connection there are times that you will need to verify your TCP/IP Network settings. Please follow the below steps to verify your Network Settings are correct.

▶ **Interactive Solution**

▶ **Manual Solution**

1. Click **Start**, select **Settings** and click **Control Panel**.
2. Double-click on **Network**.
3. Highlight the **TCP/IP** entry associated with your networking device and click **Properties**.
4. On the IP Address tab make sure "Obtain an IP address automatically" is selected.
5. Click the **WINS Configuration** tab. "Use DHCP for WINS Resolution" should be selected.
6. Click the **Gateway** tab. There should be no entries on this tab.
7. Click the **DNS Configuration** tab. "Disable DNS" should be selected.
8. Click **OK** then click **OK** again. Close the **Control Panel**.

All Steps Complete.
